Letter No.F.45/8/30-Public, dated the 1st May, 1930, from the Joint Secretary to the Government of India in the Home Department, Simla, to all local Governments and Administrations.

Employment of Government servants to assist in Census work.

I am directed to communicate the following observations on the subject of the duty of Government servants in connection with the decennial census to be held in 1931.

2. It is an accepted principle that all Government servants are bound to assist in the work of taking the census when called upon to do so by the census officers. The Government of India recognise, however, that special reasons may exist for exempting particular officials or classes of officials from this obligation, as for instance, those who will be on duty on the night of the census: while the services of others can probably be utilized only to a limited extent varying according to circumstances. It will be necessary in certain cases that orders should be issued defining the - - obligations of all the officials concerned.

( ) To local Govts. only.

I am accordingly to request that (with the permission of the Governor in Council) the attention of all Heads of Departments may be drawn to the principle explained above, with a view to the issue by them of suitable orders to the officials serving under them.
